For Ex-Gratia:

- i) 35 day of salary for each completed year of service PLUS 25 day salary for year of service left until superannuation age of 60 years.
- ii) Fraction of a year of service rendered / left calculation of ex-gratia shall be made on pro-rata basis.

Formula:

- a. Ex-gratia for completed service: $((\text{Last Pay} + \text{DA})/30) \times 35 \times (\text{Completed years of Qualifying service} + \text{Completed Months of Qualifying Service}/12 + (\text{Completed Days of Qualifying Service}/30)/12)$ {Rounded off to nearest two digits}
- b. Ex-gratia for remaining service: $(\text{Last Pay} + \text{DA})/30 \times 25 \times (\text{years of service Left} + \text{Left Months}/12 + (\text{Left Days}/30)/12)$ {Rounded off to nearest two digits}

Total Ex-gratia = a. + b. [To be rounded off to the next higher rupee as per prevailing GOI guidelines in respect of Pension + Gratuity]

However, this Gratia compensation shall not exceed the sum of salary that the employee would draw at the existing level (BP + DA on the effective date of voluntary retirement) during the service period left till superannuation from the effective date of Voluntary retirement.

~~Qualifying service to be calculated in accordance with CCS Pension Rules 1972.~~

Further, in respect of employees absorbed in BSNL under Rule 37A of CCS Pension Rules, 1972 and who opted for combined service pension the Ex-gratia together with total amount of Pension the employee would be drawing for the balance period till date of superannuation does not exceed 125% of the sum of salary (BP + DA) at prevailing level that the employee would have drawn till superannuation from the effective date of VRS.

In case of employees regularised through TSM scheme, for ex-gratia calculation, 50% of their total length of service as TSM will be counted.
